

# i7 Aviator

## Active Noise-cancelling Headphones

These sleekly designed, active noise-cancellation headphones use full-spectrum circuitry to create a sound wave that effectively reduces ambient noise, allowing you to listen to music comfortably or making crystal-clear phone calls without distractions. A design so advanced, it even suppresses noise in passive mode! Each earpiece features a potent 40mm neodymium driver that produces rich, deep, high-quality sound. The i7 headphones features supple genuine leather around-the-ear cups and a comfortable memory foam fit with a sound insulation layer, which you are sure to appreciate as you immerse yourself in music.

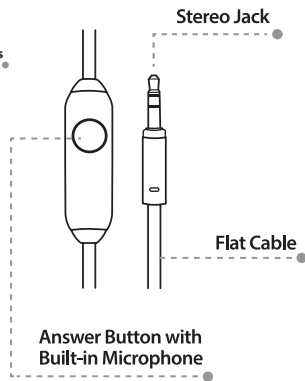

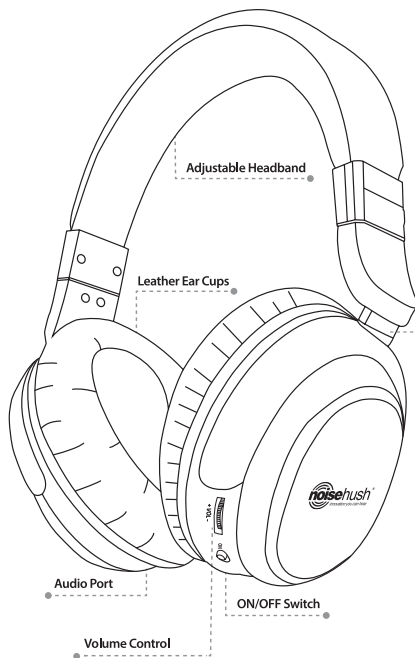

**Experience Near Absolute Silence!**
